# Australian Technology & Agricultural College

Growing Skills, Careers, &  
Communities.

Technical, Agricultural & Trade  
Pathways for OCE (YR 12)  
& Higher Education

Enrolling Now  
for 2022

Years 10, 11 & 12

## Why ATAC?

ATAC is a Senior Independent College (Years 10-12) with approved QCAA curriculum to provide Year 12 Certificate (QCE) and VETiS program. Students complete their education and training simultaneously to obtain their Trade Certificate qualifications in the industry of their choice, giving them a quick start to jobs and income.

The College (RTO#45556), offers flexible educational pathways for students who want to complete their QCE and pursue an agricultural, technical or trade career. They study English, Mathematics, Business, and Vocational Courses in the trade and agricultural sectors.

Students have access and provisions with a lot of individualised teacher support to complete their tasks at their own pace. It enables students to work as a team and provide support and encouragement to each other. There is far less stress on homework and opportunities to complete most tasks while at school. Students have time for sports, personal development or casual/part-time jobs along with work experience and potential apprenticeships.
